ELEVATORS & AUTOMATED PARKING SOLUTIONS

# We Move Cities

---

Pioneering innovation in vertical transportation and intelligent parking systems, Avant Elevators stands at the forefront of urban mobility solutions.

## About Avant Elevators

Avant Elevators is a premier provider of cutting-edge elevator systems and automated parking solutions. With decades of engineering excellence and innovation, we have transformed urban landscapes across the nation, delivering state-of-the-art mobility infrastructure that combines precision engineering with aesthetic sophistication.

**"Excellence is not a destination but a continuous journey. At Avant, we engineer possibilities."**

Our comprehensive portfolio encompasses residential and commercial elevators, advanced automated parking systems, and end-to-end maintenance services. We pride ourselves on delivering solutions that maximize space efficiency, enhance user experience, and set new benchmarks in safety and reliability.

Every Avant installation represents a commitment to quality, innovation, and the future of urban mobility. Our team of expert engineers, technicians, and service professionals work relentlessly to ensure that each project exceeds expectations and stands as a testament to engineering excellence.

## Our Vision

To be the global leader in vertical transportation and automated parking solutions, setting unprecedented standards in innovation, safety, and sustainability. We envision a future where urban mobility is seamless, efficient, and environmentally conscious.

## Our Mission

To deliver world-class elevator and parking solutions that transform spaces, enhance lives, and exceed expectations. We are committed to engineering excellence, customer satisfaction, and creating sustainable urban infrastructure for generations to come.

## What We Do

### Elevator Systems

Premium residential and commercial elevators with cutting-edge technology and elegant design

### Automated Parking

Space-efficient mechanical parking solutions including tower, puzzle, and stacker systems

### AMC Services

Comprehensive annual maintenance contracts ensuring peak performance and safety

### Smart Controls

IoT-enabled intelligent systems for remote monitoring and predictive maintenance

## Tower Parking System

Our flagship automated tower parking system maximizes vertical space utilization, accommodating multiple vehicles in a minimal footprint. Featuring advanced lift mechanisms, precision positioning, and comprehensive safety systems, the tower parking solution is ideal for high-density urban environments.

SPACE EFFICIENT

FULLY AUTOMATED

24/7 OPERATION

## Puzzle Parking System

The intelligent puzzle parking system optimizes horizontal and vertical movement to park and retrieve vehicles efficiently. With modular design flexibility, this system adapts to various site configurations while doubling or tripling parking capacity in the same footprint.

MODULAR DESIGN

QUICK RETRIEVAL

LOW MAINTENANCE

## Car Stacker System

Simple yet effective, our car stacker systems provide an economical solution for doubling parking capacity. With robust construction, smooth hydraulic operation, and comprehensive safety features, these stackers are perfect for residential complexes, commercial buildings, and individual homes.

COST EFFECTIVE

EASY OPERATION

ROBUST BUILD

## Bike Stacker System

Purpose-designed for two-wheelers, our bike stacker systems address the unique parking challenges in urban environments. Compact, efficient, and easy to operate, these systems maximize bike parking in minimal space while ensuring security and protection for each vehicle.

COMPACT DESIGN

HIGH CAPACITY

SECURE STORAGE

## Pit Parking System

Our pit parking solutions utilize underground space effectively, creating additional parking capacity without compromising ground-level aesthetics. With hydraulic lift mechanisms and weatherproof design, pit parking systems offer discreet, efficient vehicle storage solutions.

UNDERGROUND

WEATHER  
PROTECTED

AESTHETIC  
DESIGN

## No-Post Parking System

Revolutionary design eliminating center posts for maximum ground-level clearance and ease of parking. Our no-post systems feature cantilever architecture, providing unobstructed access while maintaining structural integrity and operational reliability.

NO OBSTRUCTION

EASY ACCESS

MODERN DESIGN

## Client Testimonials

*Avant Elevators transformed our parking challenges into an elegant solution. Their tower parking system doubled our capacity while enhancing the aesthetic appeal of our commercial complex. Exceptional service from start to finish.*

— Rahul Mehta, Real Estate Developer

*The professionalism and technical expertise of the Avant team is unmatched. Their puzzle parking installation was completed on time and has been operating flawlessly. Our residents are extremely satisfied with the convenience.*

— Priya Sharma, Housing Society Chairman

*We chose Avant for their reputation in innovation and they exceeded all expectations. The smart monitoring system gives us complete visibility into operations, and their maintenance team is always responsive and efficient.*

— Vikram Patel, Facility Manager

## Our Valued Clients

GAURI VINAYAK  
Builders & Developers

## Why Choose Avant

### Premium Quality

Industry-leading components and materials ensuring long-lasting performance

### Innovation

Cutting-edge technology and smart systems for modern mobility needs

### Safety First

Comprehensive safety features exceeding international standards

### Expert Engineering

Decades of experience in design, manufacturing, and installation

### 24/7 Support

Round-the-clock technical assistance and emergency response

### Custom Solutions

Tailored designs to match your specific space and requirements

### Timely Delivery

On-schedule project completion with minimal disruption

### Value for Money

Competitive pricing without compromising on quality or features
