# About Trivanta Edge

**Trivanta Edge** is a pioneering name in advanced parking system manufacturing and implementation. We specialize in creating innovative, customized parking solutions that address the critical challenge of space optimization in modern urban environments. Our systems are engineered to provide seamless car parking management, ensuring efficient space utilization while significantly reducing the time and stress associated with finding suitable parking.

Our comprehensive approach begins at the project's conceptual stage. As trusted consultants, we collaborate with developers, architects, and planners to determine ideal spatial dimensions and configurations that maximize parking capacity without compromising accessibility or safety.

## Why Choose Trivanta Edge?

With years of industry expertise, we combine cutting-edge technology with practical engineering to deliver parking systems that are reliable, efficient, and cost-effective. Our commitment to quality, innovation, and customer satisfaction has made us a preferred partner for leading developers across India.

## Key Features & Benefits

### Maximum Space Utilization

Reduces footprint by up to 60% using vertical space optimization

### Cost-Effective Operations

Low maintenance and excellent ROI through increased capacity

### Whisper-Quiet Technology

Ideal for residential areas with advanced noise reduction

### Energy Efficient

Low power consumption with eco-friendly operation

### Flexible Configurations

Solutions for basements, towers, and multi-story systems

### Safety & Security

Advanced safety features and secure vehicle enclosures

### Weather Protection

Enclosed systems protect vehicles from elements

### Smart Integration

IoT-enabled with mobile app and real-time tracking

### Rapid Installation

Modular design for quick deployment

# Comprehensive Product Range

## Tower Parking

- Single & Both Side Tower
- Double Deep (2+2)
- Triple Deep (3+3)
- Height up to 65+ meters
- High-density solutions

## Hydraulic Puzzle

- 2 Level (G+2, -1 & G)
- 3 Level Pit (-1 & G+2)
- Ground Puzzle (G+7)
- Multiple configurations
- Smooth hydraulic operation

## Stack Parking

- Ground & Above
- Pit & Ground
- Multi-level stacking
- Compact footprint
- Quick access technology

## Mechanical Puzzle

- Multi-level ground systems
- Horizontal sliding
- Vertical lift mechanisms
- Custom layouts
- Cost-effective solutions

## No Post System

- Pillar-free parking
- Maximum space efficiency
- Enhanced accessibility
- Luxury projects
- Premium aesthetic

## Two-Wheeler Parking

- Bike stackers
- Double stack systems
- Multi-level bike parking
- Weather-protected
- High-density storage

## On-Site Installations & Client Projects
